ORIGINAL PANTRY

New jam-like fruit preserves. Why jam-like? According to the law, there must be sugar in a jam, and according to us, there must be no sugar in the products; therefore, our products are sweetened with white grape juice.

The products from the Original Pantry, just like the Original Juice products, will be distinguished by their highest quality, original combination of flavours and simple ingredients.

The product range of the Original Pantry will initially include 11 products (4 Polish kinds of honey, one sour rye and cream soup, and 6 fruit preserves).

CORIANDER HONEY

Coriander honey we obtain in the Eastern Roztocze, Ukraine. Rarely gathered type, its taste can be easily distinguished from other types of honey, as it leaves a sharp and distinctive aftertaste. The honey contains vitamins A and E, niacin, essential oils, iron and manganese. It is a rich source of antioxidants and improves the immune system, has a beneficial effect on the digestive system and lowers blood pressure.

PISKOREK ORGANIC SOUR RYE SOUP

PISKOREK ORGANIC WHITE BORSCHT

In response to growing trends and consumer expectations, we are proud to present you a new line of products. Our sour rye soup and white borscht with a green leaf meet high EU standards and guarantee that the ingredients used in their products come only from certified organic farms. Our BIO – organic product line is distinguished by a special sourdough starter based on ecological flours and a complete innovation in food production – Grandera® water. This is specially treated and structured water that has many health benefits.

“CHRZANIĆ WSZYSTKO” (“THE HELL WITH IT”) NATURAL HORSE RADISH

75 % pure horseradish in a glass jar. Natural ingredients. It is a natural antibiotic that helps you get rid of a cold or strengthen your health. It has been proven that the compounds contained in horseradish prevent many cancer diseases. In addition to the above, this product is also a rich source of vitamins A, B, C and E. Among the minerals found in horseradish, it is worth to distinguish calcium, phosphorus, magnesium, iron, manganese, zinc and iodine.

ECO MUSTARD

Eco mustard is produced with raw materials from ecological cultivation. The main ingredients are ecological white mustard seeds, that gives the product perfectly hot taste and naturally fermented eco cider vinegar. No more additives, no flavour-enhancers nor aroma. Taste and color comes purely and only with natural, ecological spices.

Ecological Mustard comes with two different flavours: mild and spicy.

Mild mustard stands out of with its warm yellow color and delicate flavour.

Spicy mustard has an additional ingredient of chilli, which gives it an unusual redish color.
