

We have decided to participate in the 3rd edition of the fair to expand the sale of our products. During the fair, we had a number of discussions with people interested in cooperation. They were mostly distributors of natural food, representatives of food store networks.

Gold Medal of the WorldFood Warsaw Fair is an award for our many years of work - the prestige and motivation to increase the quality of our products even further.

We represent a company which produces and sells packing machines for the food industry. It was our debut on the WorldFood Warsaw fair and we are very happy with it. Presenting the offer on the food industry fair was a bulls-eye. Even now I can say that we are leaving with a few contracts in our pocket. We will definitely come back next year!

It is important to us to present the offer to retail stores, trading networks as well as ecostores and ecowholesale stores. WorldFood Warsaw fair was a great opportunity to make contacts with such a wide and diversified group of recipients.

During this year's edition we can appreciate the possibility to expand cooperation with international contractors and to participate in B2B talks. We will definitely come back to the 4th edition of the WorldFood Warsaw exhibition.

We have been planning to participate in the 3rd edition of the WorldFood Warsaw fair since last year, when we were just visitors.

We have come to the conclusion that the exposition on this type of event is a wonderful opportunity to make trade contacts, present our company and the new, dynamically developing segment of drinks and products, to learn about the market tendencies. We are not disappointed, WorldFood

Warsaw fair met our expectations on every level. We will see you in a year on the 4th edition!"

On the WorldFood Warsaw fair I represented the booth of the British Polish Chamber of Commerce, where I served Polish lamb. But not only - the exhibit of the Chamber had British cheese, sausages, tea, biscuits or beer.  
The tasting menu prepared by us aroused interest in the visitors. What's interesting, we were visited by people from all over the world - Sri Lanka, Greece, Cyprus, Turkey or even Australia and New Zealand.  
Thanks to such initiatives like the WorldFood Warsaw fair we can learn the diversity of the cuisine from the entire world and share it with others.

Since 1991 we have been running a family company making traditional cold meats. Our product - chopped sausage, received a Gold Medal. This award means a lot to us, it will definitely help in promoting the product.  
The 3rd edition of the fair is our first time, but we are very happy with it. Our booth was visited by many visitors who are interested in our company and our offer. We are open to distributors and trading networks from Poland.
